PROFESSIONAL SUMMARY

Full Stack Developer with a background in Mechanical Engineering and hands-on experience in building scalable, responsive, and performance-optimized web applications. Proficient in HTML, CSS, JavaScript, TypeScript, React, Next.js, Tailwind CSS, and Spring Boot. Experienced in REST API integration, modern UI development, and version control using Git. Passionate about delivering clean, maintainable code and user-centric solutions.

TECHNICAL SKILLS

Languages: Java, JavaScript (ES6+), TypeScript

Frontend Technologies: HTML5, CSS3, Tailwind CSS, React.js, Next.js, GSAP, jQuery

Mobile Technologies: React Native

Backend Technologies: Node.js, Express.js, Spring Boot, Hibernate, RESTful APIs

APIs & Integrations: TMDB API, REST API Integration, JSON

Databases: MySQL, PostgreSQL, MongoDB

DevOps / Tools: Git, GitHub, Linux, Vercel, Docker

Concepts & Methodologies: Responsive Design, API Integration, MVC Architecture, Agile Methodology

INTERNSHIP EXPERIENCE

Frontend Developer Intern – KGiSL Educational Institution

October 2025 – January 2026

- Developed 10+ responsive and interactive UI components using React, improving page load performance and usability
- Collaborated with cross-functional teams to implement user-facing features
- Improved UI performance, accessibility, and cross-browser compatibility
- Used Git for version control and followed Agile development practices

PROJECT EXPERIENCE

Personal Portfolio Website – Frontend Developer Project

Next.js, TypeScript, Tailwind CSS, GSAP

- Developed a modern, responsive portfolio website to showcase projects and technical skills
- Implemented smooth UI animations and transitions using GSAP
- Applied SEO best practices and performance optimization techniques in Next.js
- Deployed application on Vercel with GitHub-based CI/CD workflow

Netflix Clone Application – Frontend Developer Project

Next.js, TypeScript, Tailwind CSS, TMDB API, Docker

- Developed a Netflix-inspired streaming web application with dynamic movie and TV show listings using modern frontend technologies
- Integrated TMDB REST API to fetch real-time content data
- Designed reusable UI components and optimized image rendering
- Containerized the application using Docker to ensure consistent builds and deployments
- Deployed the application to Vercel with environment variable management

Online Electronics Store (Full Stack Project)

React.js, Spring Boot, Hibernate, MySQL

- Designed and developed a full-stack e-commerce platform with complete CRUD functionality

- Implemented product management features including add, update, delete, and search
 - Developed RESTful APIs using Spring Boot and Hibernate ORM
-

EDUCATION

Bachelor of Engineering – Mechanical Engineering

Anna University Regional Campus – Tirunelveli | 2020 – 2024 | CGPA: 7.71

HSC

St. Ann's Matric. Hr. Sec. School | Jun 2019 - May 2020 | 74%

SSLC

St. Ann's Matric. Hr. Sec. School | Jun 2017 - May 2018 | 84%

CERTIFICATIONS

- Mastering AI on AWS – AWS Certified AI Practitioner
 - Introduction to Front-End Development – Simplilearn
 - HTML & CSS: Basic to Advanced – Udemy
 - AI for Beginners – HP LIFE
 - Java Full Stack – J spider Bengaluru
 - Software Engineering Job Simulation Certificate - JPMorgan Chase & Co
-

ADDITIONAL SKILLS

- Strong problem-solving and debugging abilities
- Solid understanding of OOP and web application architecture
- Excellent communication, teamwork, and time management skills
